DISC is a personal assessment tool used to help improve teamwork, communication, and productivity in the workplace. DISC is an acronym that stands for the four main personality profiles described in the DISC model: (D)ominance, (I)nfluence, (S)teadiness and (C)onscientiousness. The DISC model provides a common language people can use to better understand themselves and those they interact with. Knowing where you and others around you fall on the DISC profile can help build stronger, more effective working relationships by:

Please welcome the newest member of our team - Jennifer Wagner!

We are very pleased to announce the appointment of our new Member Services Coordinator, **Jennifer Wagner**. A familiar face to many businesses in the Richland County area, Jennifer comes to us following a 31-year career as the Client Services Manager at MT Business Technologies. Jennifer has had a passion for building relationships as long as she can remember, and her understanding of commerce within our North Central Ohio community are helpful in her new role in member services. Jennifer uses that passion to connect members with resources to benefit their businesses. Known for her charisma and professionalism, a commitment to excellence shows in all her endeavors. In her new position, she will be working with current and prospective members, managing member benefits, and organizing the Chamber Ambassadors committee. Jennifer will also work with other Chamber committees, assist with events, and coordinate ribbon cuttings.

Jennifer is a TWIN (Tribute to Women & Industry) honoree and serves on the Advisory Board for the Madison Adult Career Center as well as the Advisory Board for the Ashland County-West Holmes Career Center. Her radiant smile is recognizable to many as a result of her television and marketing promotions for the First Congregational Church, where she's an active member and has served as past Chair of the Deacon Board and occasional guest speaker at the pulpit. In addition, some of Jennifer's greatest joys and reward come from volunteering with individuals with disabilities. She currently volunteers her time at Raemelon Therapeutic Equestrian Center, where she received the 2015 Volunteer of the Year award. Her desire for making a difference is a daily mantra Jennifer looks forward to applying to her new role at the Chamber.

Jennifer was born and raised in Mansfield and currently resides in Ontario. She and her husband Blake have 3 sons, and she enjoys being a dog mom to her four-legged friends, Chief and Brewster. She values spending cherished time with family and friends, travel adventures, shopping, involvement with church activities, playing pinball, and cheering on The Ohio State Buckeyes.

Please join us in welcoming Jennifer to the Chamber!

MEMBER HIGHLIGHT

Since 1804, when the first, fully-automated loom, controlled by a program coded into punch cards was used, **the world has sought to repeat, improve, and accelerate processes.**

Since 1832, when devices using punch cards were first introduced for storing and retrieving information, **the world has sought to "enhance natural intelligence."**

Since 1977, when personal computers were first mass-produced, **the world has sought to use computers in every aspect of life.**

Since 2001, when **ES Consulting** began offering its services, information technology evolved from a role of simply storing data, moving data, & connecting people more & more quickly. **IT evolved into a "core business element...a fundamental factor in the competitive advantage equation."**

It is no longer enough to simply look for a computer offering the best value and use it for what is needed at the current moment. Successful business leaders are intentionally planning their businesses around the advantages & innovations of information technology. They already know the success & profitability gained from involving information technology business professionals in their long-term business decisions.

Knowing technology and innovations is compulsory. Being able to source and install technology is rudimentary. But the expertise to develop and implement IT Solutions that intrinsically move organizations towards success is **"IT the way it should be!"**

What has motivated the world over the centuries to pursue innovation? The answer has always been the same...Time, Money, and Risk.

MEMBER HIGHLIGHTS ARE ONE OF THE MANY BENEFITS OF THE CATALYTIC LEADER LEVEL OF CHAMBER MEMBERSHIP.
