HIGH SCHOOL ELECTRONICS CAMPS

HOST ORGANIZATIONS:

The Richland Area Chamber & Economic Development, The Ohio State University at Mansfield, and the 179th Cyberspace Wing are collaborating to provide Richland County high school students with an introduction to technology-based career pathways.

Location:

The Ohio State University at Mansfield
1760 University Dr.,
Mansfield, OH 44906

ELECTRONICS FOR BEGINNERS

JUNE 8-11, 2026

- Understand the basics of programming in a variant of the C++ language.
- Leverage critical thinking skills to come up with innovative designs.
- Learn how hardware and software are coupled together to create new tech with your very own kit.

ELECTRONICS FOR INTERMEDIATE USERS

JUNE 15-18, 2026

- Expand coding and problem-solving abilities.
- Explore real-world applications of microcontrollers and strengthen understanding of embedded systems.
- Prior coding experience is recommended.
